About Oncology

Realigning the Oncology Program with Evolving Landscape

Guided by board feedback and industry trends, the Oncology Program is evolving to deliver practical, site-centered solutions and foster year-round engagement — ensuring sponsors are aligned with initiatives that drive real, measurable impact for research sites.

The Work Ahead

GROW | ADVOCATE | LEAD

As the Oncology Program evolves, SCRS remains focused on delivering **practical, site-centered solutions** and fostering **year-round engagement** that drives meaningful impact.

1

Membership & Growth Engagement

- Assess the value SCRS provides to members and potential members
- Build and sustain a collaborative network of oncology clinical research sites to foster peer-to-peer learning and professional development
- Organize in-person events offering valuable content and networking opportunities that strengthen community bonds

2

Business Development & Operations

- Offer quarterly webinars/symposiums, develop oncology-specific workshops, and create tools and resources for comprehensive site support
- Conduct and share the Oncology Landscape Survey

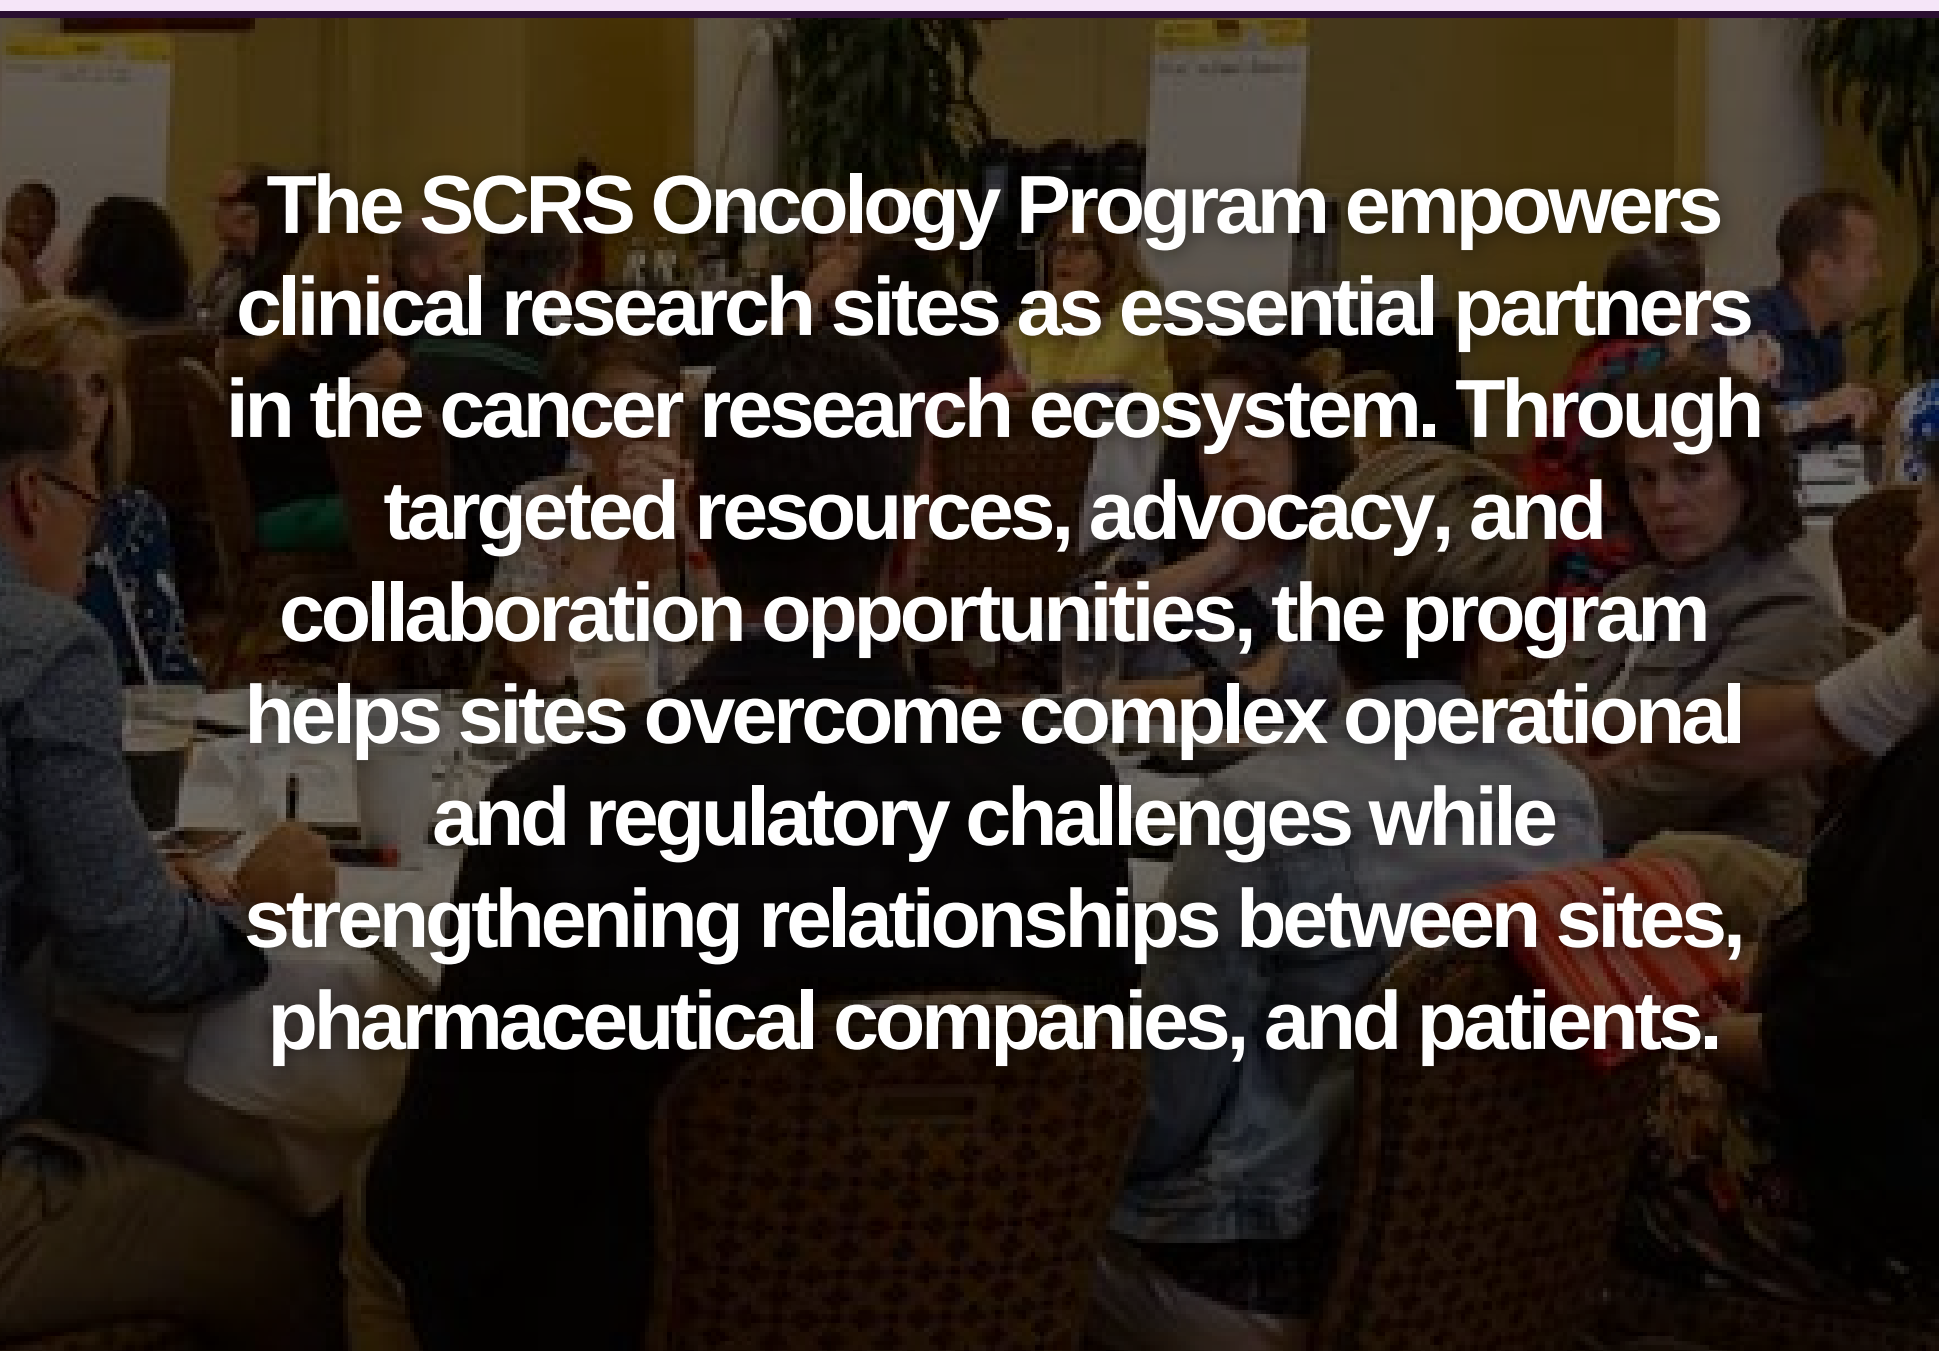

3

Emerging Site Pathway

- Guide for Sponsors/CROs to migrate emerging sites from trained to selected
- Key focus areas: Define emerging site, sponsor visibility plan, monitoring plan considerations, experienced-emerging site mentorship, and ongoing education

Your Oncology Sponsorship Impact

Empowering research sites through resource development, community engagement, and site-driven solutions to advance real-world impact.

A background image showing a group of people sitting at tables in a conference room, engaged in discussion and looking at documents.

The SCRS Oncology Program empowers clinical research sites as essential partners in the cancer research ecosystem. Through targeted resources, advocacy, and collaboration opportunities, the program helps sites overcome complex operational and regulatory challenges while strengthening relationships between sites, pharmaceutical companies, and patients.

Program and Resources

Directly contribute to expanding vital tools and education that help research sites streamline oncology trial operations and improve participant outcomes.

Enhanced Collaboration

Help build a stronger, more connected research site community, enabling shared learning and scalable success through regional and digital collaboration.

Site Empowerment

Share thought leadership with exclusive opportunities in workteams, symposia and the 2026 Site Solutions Summits.

SCRS Oncology Sponsorship Benefits

\$15,000 | 12 months

THOUGHT LEADERSHIP

Collaborate: Join industry leaders on upcoming SCRS Oncology Initiative work-streams (quarterly meetings)

Lead: Your sponsorship provides a seat on the SCRS Oncology Program Steering Committee. The leading industry peer group for oncology site trends.

Access: All working group reports, executive summaries and tools in the Oncology program (annually)

BRAND LEADERSHIP

Recognition: Your logo included across all publications, virtual and in-person events, and on SCRS website for the term of your sponsorship (annually)

Deliver: Share in the publishing of tools, resources and content based on Oncology work-stream output (annually)

Contribute: Ongoing content opportunities throughout the year, including articles, case studies, presentations, surveys or research (annually)

PROFESSIONAL ADVANTAGE

Network: With other industry leaders through Steering Committee involvement and work-streams

Events: Inclusion in exclusive Summit programming (European, ANZ and Global Summits)

Evolve: Your SCRS Oncology Sponsorship will provide you with the leadership and collaboration opportunities that accelerate operational advantage for study design and site engagement.
